

Health Data for COVID Recovery Decision-Making – A Snapshot of Anthem's C19 Explorer Tool June 17, 2020

Thank You for Joining!

Webinar Overview

Learn about Anthem's new C19 Explorer dashboard that uses a unique breadth of localized data to support citizens and leaders as they navigate recovery in a COVID-19 era.

C-19 Explorer is available to the public, elected, and appointed officials in an effort to strengthen data-driven decision-making using the most up-to-date health data. In a rapidly changing environment, access to critical data drives effective recovery for community, economic and social health. The C19 Explorer creates powerful visualizations of actionable metrics tailored to the local level.

Today's Agenda

Welcome & Overview

About CSAC, ILG, Anthem

C19 Explorer

May 2020

Supporting data-driven decisions for recovery

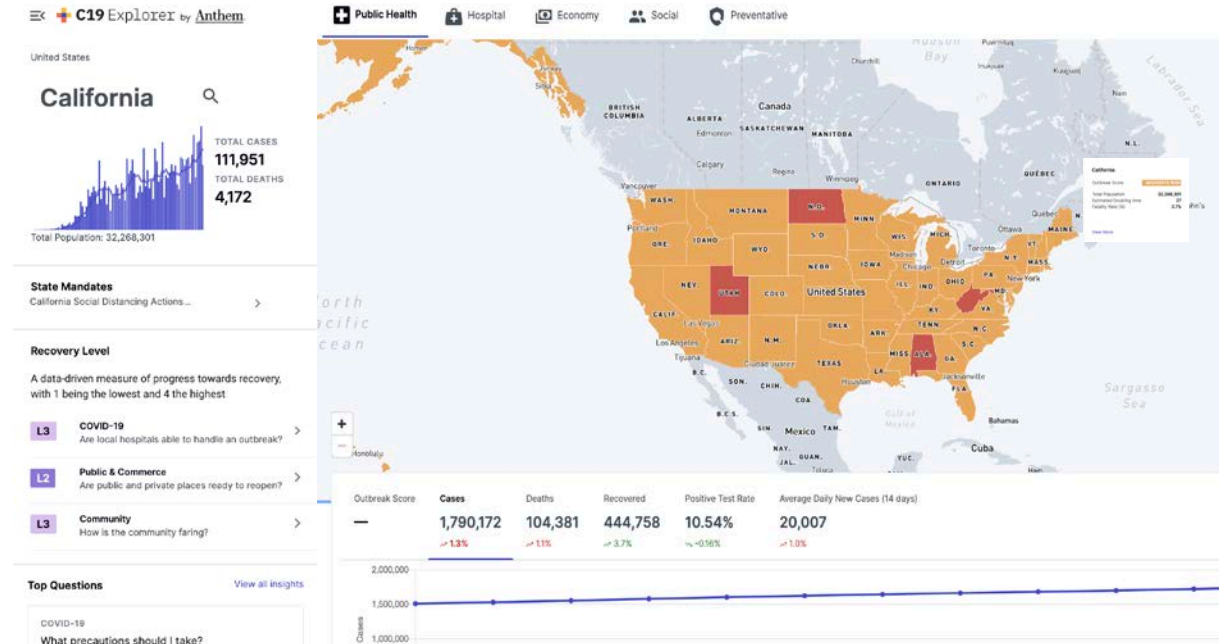

C19 Explorer is a real-time dashboard that supports both citizens and leaders as they make decisions around re-opening and monitor the rapidly changing environment

Why: As a leading healthcare company, Anthem is leveraging our experience and public data partnerships to provide leaders and citizens with decision support

What: An intuitive, interactive dashboard that supports citizens and leaders in their efforts to monitor key metrics and understand points of risk through re-opening process

How: Combining public and private data at the federal, state, and county level to localize insights while also allowing states to share their data for greater customization

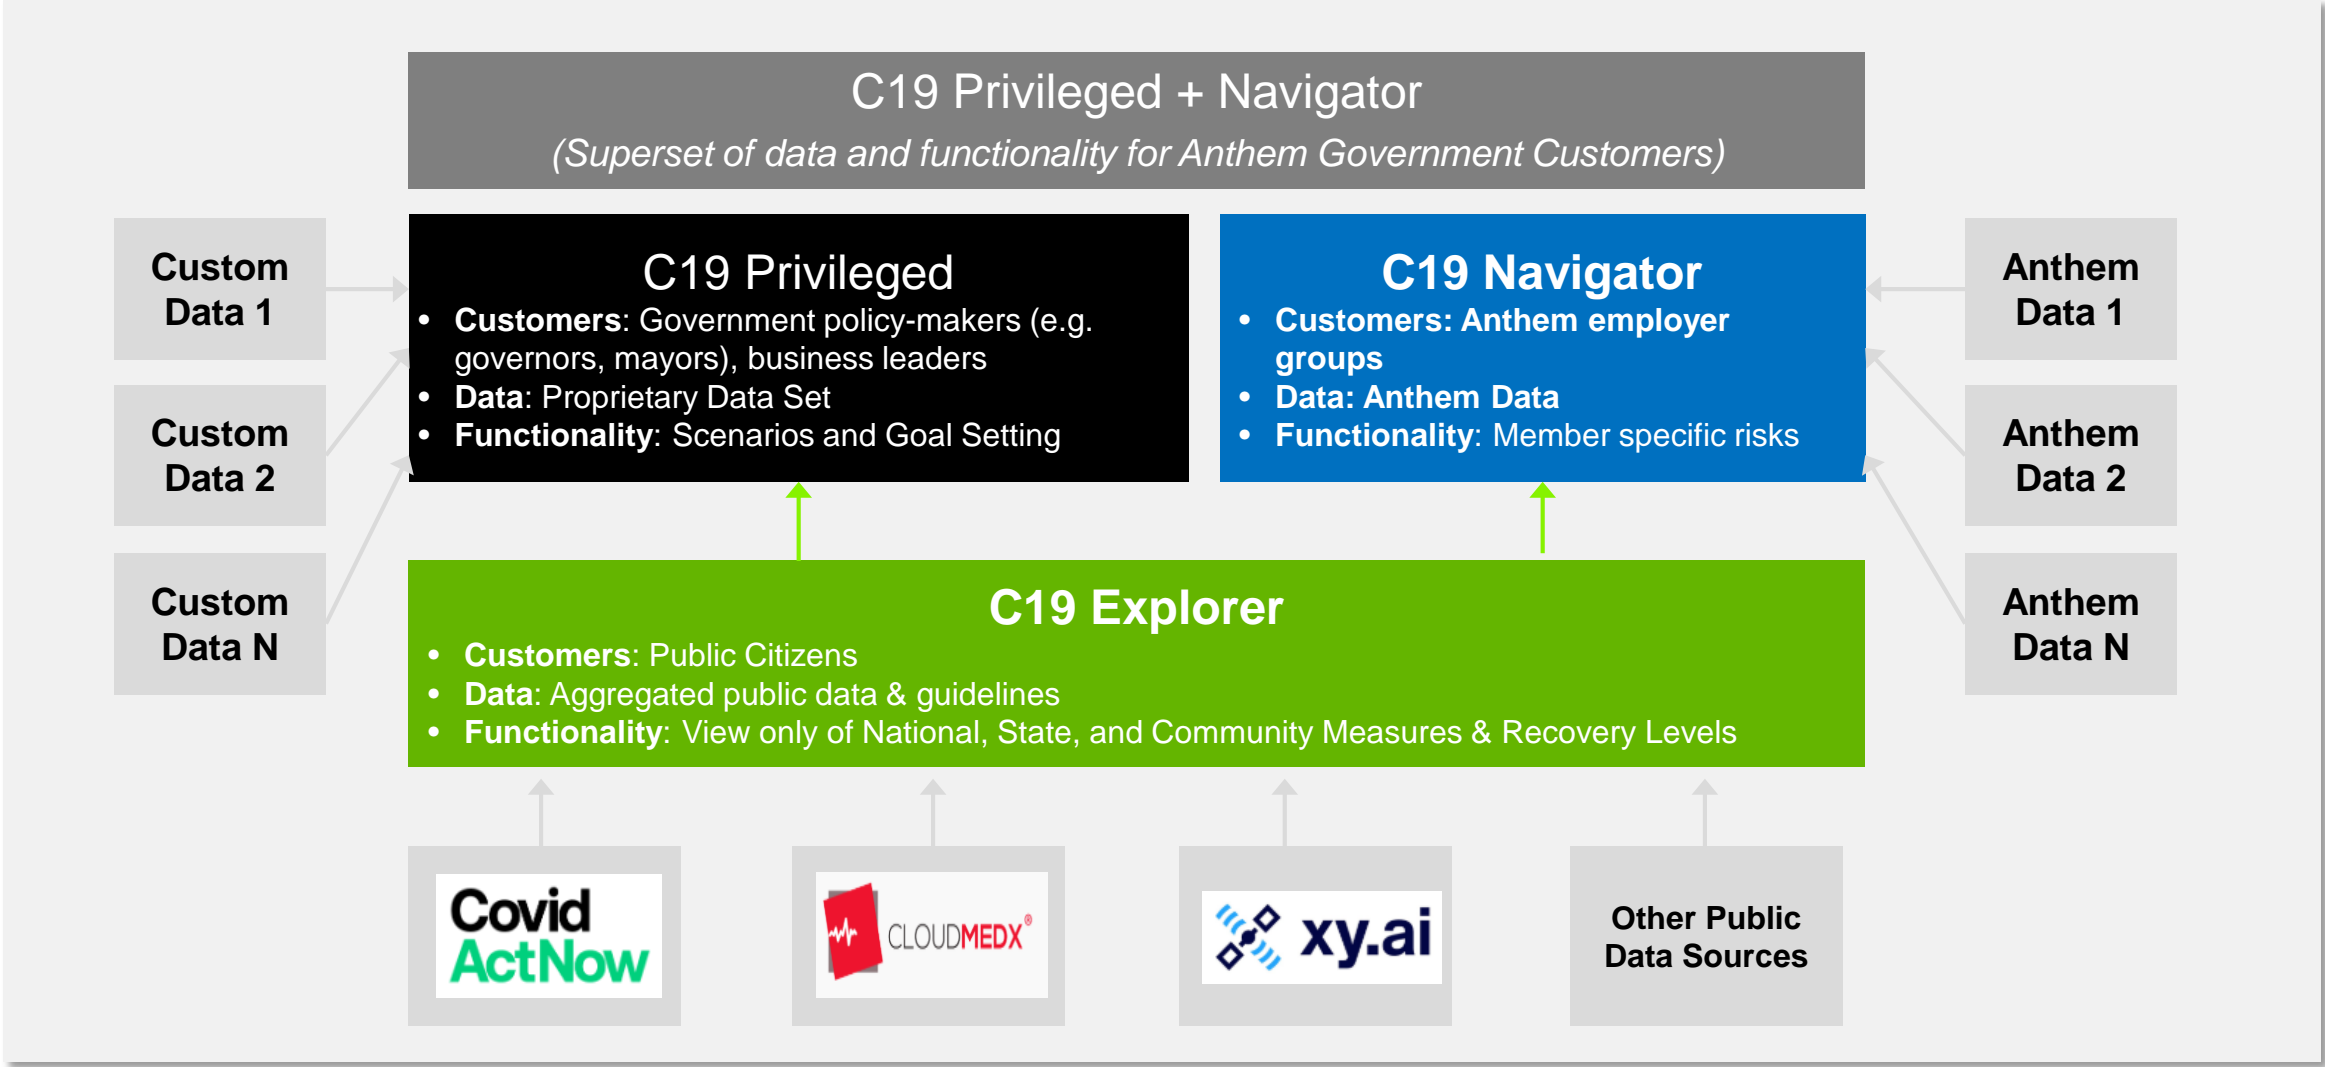

What it isn't: A detailed reopen plan; rather a broad, data-driven collection of insights and patterns to support unbiased decision making

FEATURES

- Informative data related to the COVID-19 outbreak, hospital utilization, and the impact on the economy and society
- Trends at national, state, and county level (cases, recoveries, etc.)
- Recovery Levels measure progress toward recovery (clickable for additional detail)
- *Coming Soon* – privileged view that utilized public and proprietary (if provided) data as well as simulations to inform policy and public health actions
- *Coming Soon* – integration with C19 Navigator to support employers' return to work and population health decisions

The future will have a public interface, but will also support tools for both government policy-makers (C19 Privileged) and Anthem constituents (C19 Navigator) with varying data and functionality
